

### Circolari TYPE VV

Una gamma completa di supporti con fissaggio a filettatura maschio da entrambi i lati, che possono essere utilizzati in compressione, taglio o compressione-taglio combinati. Le parti metalliche sono stampate o saldate a seconda della grandezza dell'antivibrante. Dimensioni da 8 a 150 mm. con carichi applicati da pochi N ad oltre 1.000 daN.

#### CAMPO DI IMPIEGO

- Apparecchi di misura
- Strumentazioni
- Piccole macchine in genere
- Motori elettrici
- Pompe
- Radiatori
